

Professional swimwear spin dryers

Dries swimsuit faster than the Sun

Removes up to 95%
water in 10 seconds

Made of chemically resistant
passivated stainless steel and
high-quality plastics

Plenty of attractive and
elegant designs

Company Bamiko Ltd. is a Czech company that specializes in Swimwear Spin Dryers manufacturing. Bamiko company follows the trend and helps to improve quality standards by offering a high quality, reliable and appealing product for every modern establishment.

9 reasons to choose a Bamiko spin dryer:

HIGH EFFICIENCY: removes up to 95% of water from the swimsuit within 10 seconds

QUALITY MATERIALS: the chemically resistant stainless steel (AISI 316 Ti) and PE can withstand any type of water

MAXIMUM SAFETY: the centrifuge won't start unless the lid is closed thanks to the safety limit switch, and the protective bristle ring ensures that the swimsuit stays inside the drum

EASY TO CLEAN: the passivated stainless-steel drum for swimsuits is very easy to clean and guarantees maximum cleanliness

SIMPLE OPERATION: simply insert the swimsuit inside the drum, the spin dryer will start after closing the lid and will stop automatically when the cycle is over

COMPACT DIMENSIONS: the compact dimensions of the swimwear spin dryer allows you to install it in places where no other product can fit

UNEXPECTED MATURITY: the control programme analyses the centrifuge's condition and alerts you about faulty components, it can also tell you how many people used the product

ENVIRONMENTALLY FRIENDLY: by installing the swimwear dryer, your visitors will no longer need a complimentary plastic bag for their wet swimsuit

MAXIMUM ADAPTABILITY: thanks to unlimited design options, the spin dryer fully adapts to your needs

Specifications

- Dimensions: 350 x 300 x 545 (width x depth x height)
- Weight: 22.5 Kg
- Rated power input: 0.28 kW
- Rated voltage: 1N~230V/50-60Hz
- Cycle time: 10 seconds
- Designed for one swimsuit
