

Token timer CM 100

TECHNICAL PARAMETERS

- product name: Token timer Bamiko
- type and model: CM 100, TOKEN
- dimensions: 176 x 110 x 268 mm
(width x depth x height)
- weight: 3 kg
- total power: 1 W
- voltage: 5 VDC / 0,2 A
- IP rating: IPX4
- materia: AISI 304
- cycle time: 20 seconds
- capacity of token box: 350 tokens

FUNCTIONS

- after inserting a token, a 20 seconds cycle when the swimwear dryer can be used starts
- after inserting another token the time is increased by another 20 seconds up to the limit of 80 seconds
- the integrated digital display shows the remaining time of the cycle
- the token timer can be temporarily disengaged to operate the swimwear dryer free of charge
- the integrated token counter can show how many people used the token timer
- the token box is located inside the token timer behind a lockable door
- features signalization of full token box
- it is connected to the swimwear dryer with just one cable

INSTALLATION

- the token timer can be installed at the same places as the swimwear dryer
- we recommend placing the token timer to the left or to the right of the swimwear dryer so that the top edge is 140 cm from the floor
- the token timer is installed onto the wall using 3 supplied wall fixings and screws
- 5-core cable that leads out of the bottom left side of the token timer is connected into the motherboard of the swimwear dryer
- the token timer is powered from the swimwear dryer (supplied transformer is installed in the RCD box)
